BENJAMIN KORSAH

United Kingdom +44 | 7917724207 | benkorsah94@gmail.com *Benjamin E. Korsah (PMP)*

Summary

Cybersecurity-focused professional with an MSc in Cybersecurity and experience in quality management systems, internal auditing, risk assessment, compliance, and continuous improvement within manufacturing and operational environments. Trained in ISO 9001, ISO 14001, and ISO 45001 auditing, with transferable skills in risk identification, control evaluation, root cause analysis, and evidence-based problem-solving. Combines analytical capabilities with digital transformation experience using Microsoft Power BI, Power Automate, and Power Apps. Seeking to transition into cybersecurity, with a particular interest in penetration testing, Security Operations Centre (SOC) analysis, vulnerability assessment, information security auditing, and Governance, Risk and Compliance (GRC). Committed to applying a structured, risk-based approach to identifying security weaknesses, strengthening controls, supporting regulatory compliance, and improving organisational cyber resilience.

Education

University of Chester – *Master of Science in Cybersecurity*
September 2023 – October 2024

University of Cape Coast – *Bachelor of Education in Accounting*
August 2013 – May 2017

Certifications

1. (ISC)2 Certified in Cybersecurity
2. Project Management Professional (PMP)
3. Certified Internal Auditor in ISO 9001, 14001 and 45001

Experience

Quality Engineer
Kingspan Insulated Panels, UK & Ireland— December 2024 to Present

- Support governance, compliance and continual improvement activities across integrated management systems aligned with internationally recognised standards.
- Conduct risk-based internal audits, identify non-conformities and support corrective action implementation to reduce operational risk.
- Perform structured investigations using Root Cause Analysis methodologies including 5 Why and Fishbone Analysis to identify underlying causes and prevent recurrence.
- Develop and maintain controlled documentation, procedures and records to support compliance and governance requirements.
- Collaborate with cross-functional teams to assess process risks and implement improvement initiatives.
- Develop Power BI dashboards providing KPI visibility and data-driven reporting for operational performance monitoring.
- Design and implement Power Automate workflows to improve process efficiency and reduce manual compliance activities.

- Build Power Apps solutions for audit management, inspection tracking and operational governance processes.
- Support external audit preparation, compliance reviews and corrective action management.
- Drive continuous improvement initiatives focused on risk reduction, process standardisation and operational resilience.

Recruitment and Compliance Manager
New Horizon Healthcare Services — August 2024 to December 2024

- Spearheaded the recruitment and compliance processes for healthcare professionals, ensuring full adherence to legal and industry standards.
- Conduct regular internal compliance audits, identifying and resolving non-conformities through root cause analysis and corrective actions.
- Drive continuous compliance monitoring, resolving issues and ensuring a 100% regulatory compliance rate.

Operations Manager
Future of Africa — October 2019 to September 2023

- Spearheaded fundraising initiatives and donor stewardship, managing relationships with donors contributing over $40,000 annually.
- Successfully hosted donor visits, securing renewed commitments through program showcases and impact storytelling.
- Coordinated donor reporting, consistently meeting strict grant requirements and deadlines with high-quality submissions.
- Expanded operations from 3 to 10 staff, while recruiting 30+ children into education and skills programs.
- Built operational systems and standardized documentation, improving efficiency and compliance.

***Soft Skills*:**

- Problem-solving and analytical thinking.
- Strong public speaking and presentation delivery.
- Adaptable, with a commitment to continuous learning and professional development.

Cybersecurity

- Kali Linux
- Nmap
- SIEMS
- Sentinel

Quality & Compliance

- ISO 9001 Internal Auditing
- ISO 14001 Internal Auditing
- ISO 45001 Internal Auditing
- Quality Management Systems (QMS)
- CAPA & Corrective Actions
- Root Cause Analysis (5 Why, Fishbone/Ishikawa)
- Continuous Improvement
- Internal & External Audit Support
- Process Standardisation
- SOP & Document Control

Digital & Analytical Tools

- Microsoft Power BI
- Microsoft Power Automate
- Microsoft Power Apps
- Microsoft Excel (Advanced)
- Dashboard & KPI Reporting
- Workflow Automation
- Data Analysis & Reporting

Professional Skills

- Cross-Functional Collaboration
- Stakeholder Management
- Process Optimisation
- Manufacturing Support
- Problem Solving
- Communication & Team Collaboration

Hobbies & Interest

- Football: Represented my university team in Ghana.
- Sports Journalism: Worked as a sports journalist for my undergraduate radio station.
- Enthusiastic learner, always exploring new skills.
- Enjoy socializing and engaging in community activities.
